DRAPING

W: ignz.co.nz E: info@ignz.co.nz P: 06 354 4421

Our range of drapes can be used for theatrical draping, room partitions and dressing, display and photographic backgrounds.

All our drapes are fire retardant which makes them the safest fabric option to use in almost any indoor environment. The drapes have various attachment options with ties, velcro strips and pockets for use with the Innovative Pole System.

Our range of drops and specialist drapes provide clients with the extra flare and personalised touch.

When installing our standard drapes, the flat drapes can be gathered to create a more soft, glamorous look to suit your event or function. This flexibility allows our drapes to work in well with existing systems.

The Innovative Pole System is a versatile 'on-the-ground' solution that allows drapes, scenery, decorations or banners to be hung or lifted to a variety of heights ranging from 1.4m to 6m.
